

AUTHORISATION TO JOIN THE SAMEUROPE PLATFORM

The SAMEurope network in a nutshell

SAMEurope (Student Athletes Erasmus+ Mobility in Europe) is a network created in 2022 (via a 3-year project within the Erasmus+ Sport Cooperation Partnerships call). The network has created and implemented concrete tools to support Dual Career (DC) students with their Erasmus+ mobility. Our main objective is to make it easier for DC students to find a university where they can pursue their academic studies and practice their sport at a high level when going on an international mobility.

To meet this objective, the SAMEurope team created a platform which gathers the mobility offers from international Higher Education Institutions (HEI) open to DC students.

This tool aims to combine, for each university:

- the contact point for high-level sport,
- the European universities prepared to welcome DC students,
- the available sports and possible arrangements/benefits,
- the dedicated facilities.

The platform

The platform has been officially launched to the public in May 2025 and is accessible for free to all HEIs wishing to support DC students on the SAMEurope website (<https://www.sameuropeproject.eu/about-the-platform/>).

To join the platform, you will be asked to enter information related to your university, your offer in terms of sport and facilities as well as dual career programme benefits identified within the scope of the SAMEurope project.

We ask that you first complete and sign this document before uploading it again and sending your application. Please make sure to have the authorisation of your management or any person who might be concerned as you will be entering information related to your university that will be publicly displayed.

If you have any questions or would like to withdraw your university from the platform in the future, you can contact us at sameurope@insa-lyon.fr.

First name

Family name

Position

Email

*Full university
name*

Please note that in the future, the conditions to access the platform may change and rely on different criteria (e.g. a number of dual career programme benefits). In that case, we will contact you to re-evaluate your access to the platform.

SAMEurope

Motivation to join the platform. Please add a few words on why you would like to join the platform. Note that this won't have any impact on your application as there are no entry criteria for joining. This is only to know more about the DC students' situation within your university (what you might already have in place to support them, etc.).

I hereby certify that I have the authorisation of my management or any person who might be concerned to join the platform
